Rehab and Community Services in Champlain during COVID

Thursday July 9, 2020

12:00 - 13:30 PM

Welcome and Overview

- This webinar provides an overview of sub-acute services that exist in the Champlain region to support transitions in care, and to provide information to regional stakeholders on modifications to sub-acute programs and services due to COVID guidelines.
- The objectives of this webinar are:
 - To provide an overview of some of the current sub-acute programs and services available within the Champlain region.
 - To inform regional stakeholders on changes to programs and services due to the COVID-19 restrictions and guidelines.
 - To provide awareness on how to access sub-acute programs and services to support transitions in care.
- There will also be a Q&A and an opportunity to discuss how we can more effectively and efficiently work together within the region to support care delivery in the last 25 minutes of the webinar.

Meet our speakers

Jaime Constable, Knowledge Mobilization Specialist,
Champlain Community Support Network (CCSN)

Beth Donnelly, Rehab, Community and LTC Coordinator,
Champlain Regional Stroke Network (CRSN)

Jeanne Bonnell, Director, Home & Community Care
Champlain Local Health Integration Network (LHIN)

Theresa Grant, Community Stroke Rehabilitation
Program, Clinical Manager Champlain Local Health
Integration Network (LHIN)

Jennifer Harris, Regional and Quality Manager,
Prevention and Rehabilitation Programs, University of
Ottawa Heart Institute

Q&A and Working Together

Brainstorm and discuss how we can more effectively and efficiently work together within the region to support care delivery.

Future opportunities

- Looking into a second webinar focused on sharing the innovative and alternative approaches to care delivery during COVID restrictions spanning the full continuum of care.
- This clinician-focussed webinar would aim to provide an overview of different approaches being used by health care providers to support care delivery within the restrictions and guidelines imposed by COVID-19 and align with regulatory requirements and safety considerations.

All sessions will be recorded
and available on our
Prevention and Wellness Centre (PWC) website.
